## STATE FARMERS

This year the Chillicothe Chapter is fortunate to have three members who have received the State Farmer Degree. They are Tom Bonderer, Wayne Cunningham, and Larry Hershberger. To receive the degree a member must have shown outstanding leadership and cooperation, be familiar with the provisions of the state constitution, and have an outstanding supervised farming program.

Tom's supervised farming projects consist of 12 sows and litters, 18 beef cows and calves, 50 acres of corn, 50 acres of milo, 100 acres of soybeans, 15 acres of wheat, and 20 acres of red clover.

Wayne's projects are 7 sows and pigs, 1 boar, 9 beef cows and calves, 40 acres of corn, and 15 acres of soybeans.

Larry has in his supervised farming program this year 7 beef cows and calves, 1 beef bull, 6 acres of corn, 25 acres of soybeans, 15 acres of wheat, 15 acres of pasture, and 50 feeder pigs.

The state farmer degree is not based on supervised farming projects but on leadership. These boys certainly possess these qualities. We would like to congratulate them on attaining this high award. The most state farmers that any Chapter may have per year is three, and we think we have three of the most outstanding.
